

Freelancers to the emergency room!

TEXTKLINIK looks after weak & sickly texts, providing everything from first-aid to full surgical procedures. We're looking for

Proofreaders/ editors,

to help us out .

If you have found eight mistakes up to this point, (and there are more if you look closely), you should definitely read on.

We offer 3 types of text optimization: Basic proof-reading, stylistic editing, and creative text support. Our patients range from simple business letters to fliers e.g. and from glossy brochures to websites. In short: we treat any kind of business-text.

Our clients include communication agency and P.R. departments of major companies. They know that our flexible text optimisation team provides a valuable service: it costs 30 - 70 % less to get a text facelift at Textklinik than to have copy completely re-written.

We are looking for a freelancer who would like to help us out now and again when our surgery is overwhelmed with patients.

You must have a feel for language and preferably some experience of proofing and editing. You are confident, that you can treat even difficult patients quickly and expertly - whether that means following our clients' stylistic guidelines sensitively and diplomatically or completely overhauling a text, depending on the brief. You produce flawless results even under pressure and are discrete at all times.

If you are interested in working with us, please show us what you can do: correct this text (using either British or American Spelling) and send it to Textklinik GmbH, Talstraße 24, 40127 Düsseldorf, Germany.
